Gain Direct Access to One of the World's Fastest-Growing Energy Markets

As the world requires more energy, from more sources, with lower carbon intensity to meet rising demand responsibly, Africa is emerging as a critical stakeholder in global energy dynamics. With its vast abundance of hydrocarbons, renewable resources and critical minerals, Africa has the opportunity to harness its natural resource wealth to transform societies and uplift economies.

As Africa's largest economy and the energy capital of the continent, Nigeria has evolved to become a competitive player on the world stage. As the backbone of West Africa's oil and gas economy, and a regional powerhouse in energy production, Nigeria's energy ambitions are rapidly meeting the world's growing energy demands and reshaping the future of the global energy landscape.

Energy Milestones

Africa's LNG Expansion

LNG exports from sub-Saharan Africa to soar by circa 175% - from 35.7 bpm in 2024 to 98 bpm by 2034.

Accelerating Strategic Investment

\$30 billion in energy sector investment by 2027, scaling to \$60 billion by 2030.

Increased Production Targets

3 million barrels of oil and 12 bcf of gas per day by 2030.

Reforms for Energy Progress

Recent policy shifts have unlocked over \$16 billion in upstream opportunities.

Maximising Natural Gas Opportunities

20 supply projects to increase production by 50% and meet 60% domestic demand by 2030.

Driving Energy Integration Through Technology

Centralised energy systems rising from 34% in 2020 to 94% by 2060, with 8% annual growth.

This landmark event continues to shape not only the trajectory of our industry, but also the future of energy in Nigeria and our global presence. NOG Energy Week has become a cornerstone of high-level engagement, uniting governments, industry leaders, investors, academia, and other key stakeholders to chart the course of our energy future.

It is our shared responsibility to lead, collaborate, and act boldly in this era of rapid energy transformation, which speaks to the urgency of the global moment, and the ambition Nigeria must embrace to secure its energy future.

We envision this conference as a platform where real deals are made. When people think of NOG Energy Week, we want them to think of the number of deals they can close.

25 Years. One Platform. The Heartbeat of Nigeria's Energy Transformation.

For 25 years the NOG Energy Week Conference & Exhibition has been privileged to partner with industry and governments to chart Nigeria's energy growth story.

During this time, NOG Energy Week has firmly established itself as a strategic enabler, delivering unique value and impact for businesses and citizens across the region's dynamic energy market.

As Nigeria's foremost convening platform for the international energy community, NOG Energy Week drives bold dialogue, strategic partnerships, and deal-making to advance markets and accelerate progress towards a secure, just, and sustainable energy future.

“

NOG Energy Week provides the opportunity to look at where we were yesterday, where we are today, and where we want to be tomorrow. It's an event where we can critically assess where we'll be next year.

H.E. Sen. Heineken Lokpobiri
Honourable Minister of State
for Petroleum Resources (Oil)
Federal Republic of Nigeria

”

“

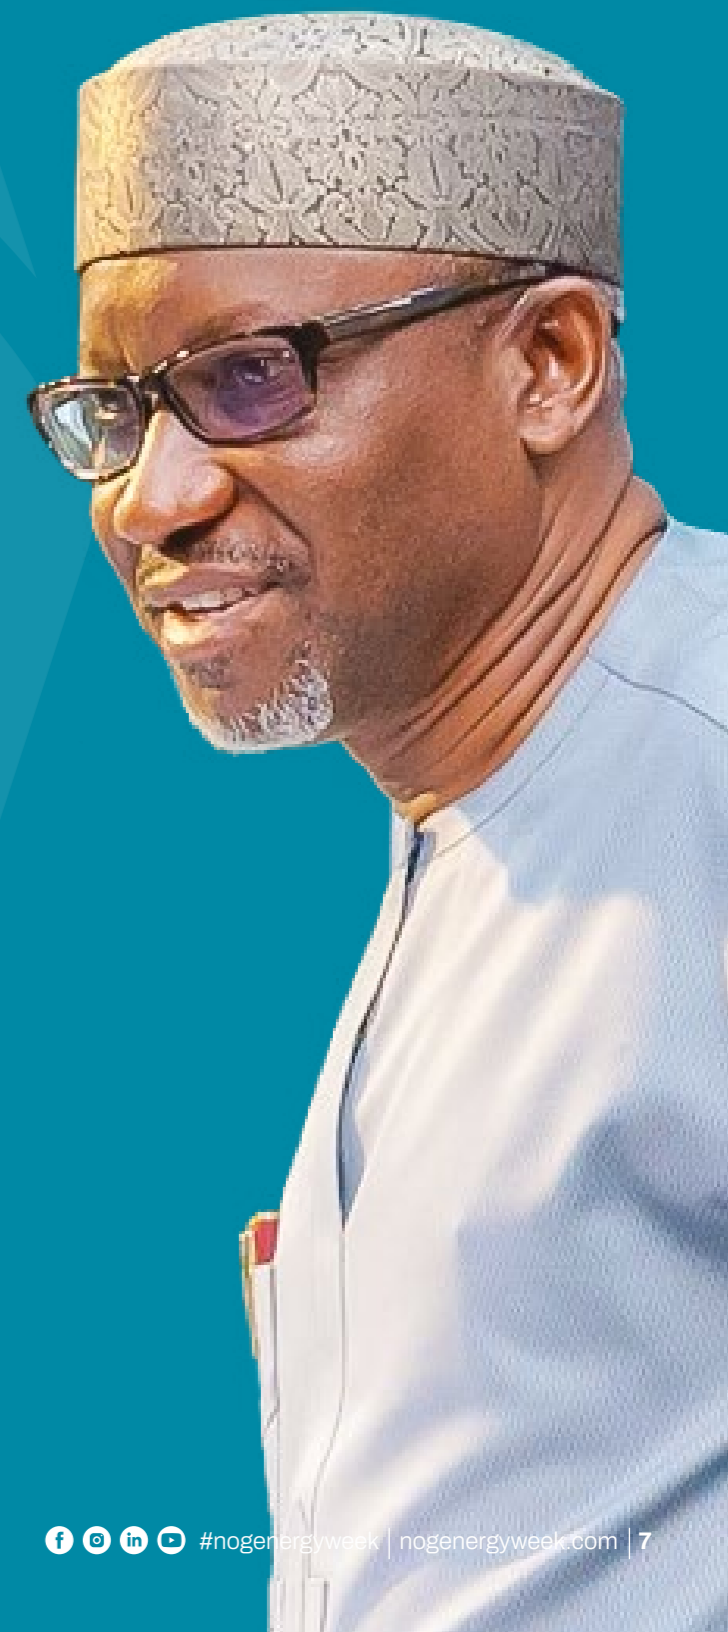

NOG Energy Week has become the cornerstone of our industry's calendar.

Investment is the lifeblood of the oil and gas sector. The Ministry has been instrumental in implementing reforms that make Nigeria an attractive destination for both local and international investors. The Petroleum Industry Act (PIA 2021) and the recent Presidential Directives for oil and gas companies on tax incentives have created a conducive environment for investments. These reforms ensure transparency, accountability and regulatory certainty, making Nigeria an attractive destination for investors.

Let us embrace the opportunities before us, drive the necessary investments and meet our energy demand with resilience and innovation.

H. E. Rt. Hon. Ekperikpe Ekpo
Honourable Minister of State
for Petroleum Resources (Gas)
Federal Republic of Nigeria

”

Event Overview

Strategic Conference

Continuing its 25-year legacy of energy leadership, the Strategic Conference stands as one of Africa's most prestigious and longest standing gatherings in the oil, gas, and energy sectors. Renowned for convening over 2,000 high-calibre business and political decision makers, the 2026 edition will showcase transformative discussions driven by regional and global leaders representing the full energy ecosystem.

International Exhibition

Spanning the entire value chain, the Exhibition brings together over 7,500 stakeholders – from upstream exploration specialists and midstream logistics providers to downstream refiners, service companies, and renewables innovators. It has become a dynamic hub for order taking, purchasing, and procurement products and services, consistently setting industry benchmarks and shaping the future of energy across Africa and beyond.

Energy Club

The NOG Energy Club offers a premium and exclusive, invitation only, global leadership networking circle for ministers, dignitaries and C-suite executives across the energy and adjacent sectors.

Leadership Roundtables

The NOG Energy Week Leadership Roundtables are exclusive, invitation only meetings under the Chatham House Rule, bringing together decision makers such as ministers, C-level executives and policymakers to foster transformative thinking that will shape the future of the most official energy challenges being faced by the industry.

Awards

With 11 dynamic award categories, the coveted NOG Energy Awards celebrate excellence, innovation, and diversity by honouring outstanding individuals, companies, and projects that have made significant impacts and advancements in Nigeria and Africa's energy industry over the previous 12 months.

Nigerian Content Seminar

The Nigerian Content Seminar is an integral part of the NOG Energy Week Strategic Conference. The Seminar is organised in collaboration with the Nigerian Content Development and Monitoring Board (NCDMB), and serves as a platform for stakeholders to understand the NOGICD Act and its wide-ranging opportunities.

Technical Seminar

The Technical Seminar is a cornerstone for innovation and knowledge sharing in the oil, gas, and energy sectors. Designed for technical and engineering professionals, this CPD-certified Seminar features cutting-edge sessions on advanced technologies, breakthrough research, and industry best practices.

Key Industry Participants Include

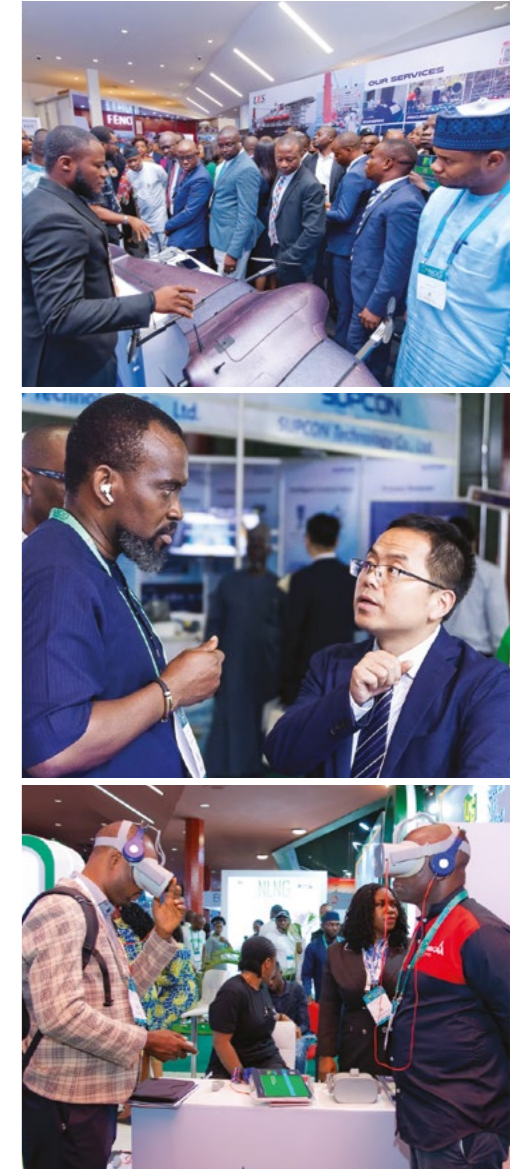

International Exhibition

Renowned for its scale and impact, NOG Energy Week's Exhibition has become the definitive meeting place for buyers, sellers, and industry leaders looking to drive innovation, build lasting partnerships, and facilitate dealmaking at every level.

Spanning the entire energy value chain, the Exhibition convenes a diverse spectrum of stakeholders – from upstream explorers and midstream logistics experts to downstream refiners, service providers, and renewable energy pioneers. It is a vibrant marketplace for procurement, order placement, and product sourcing, consistently setting industry benchmarks and shaping the energy future.

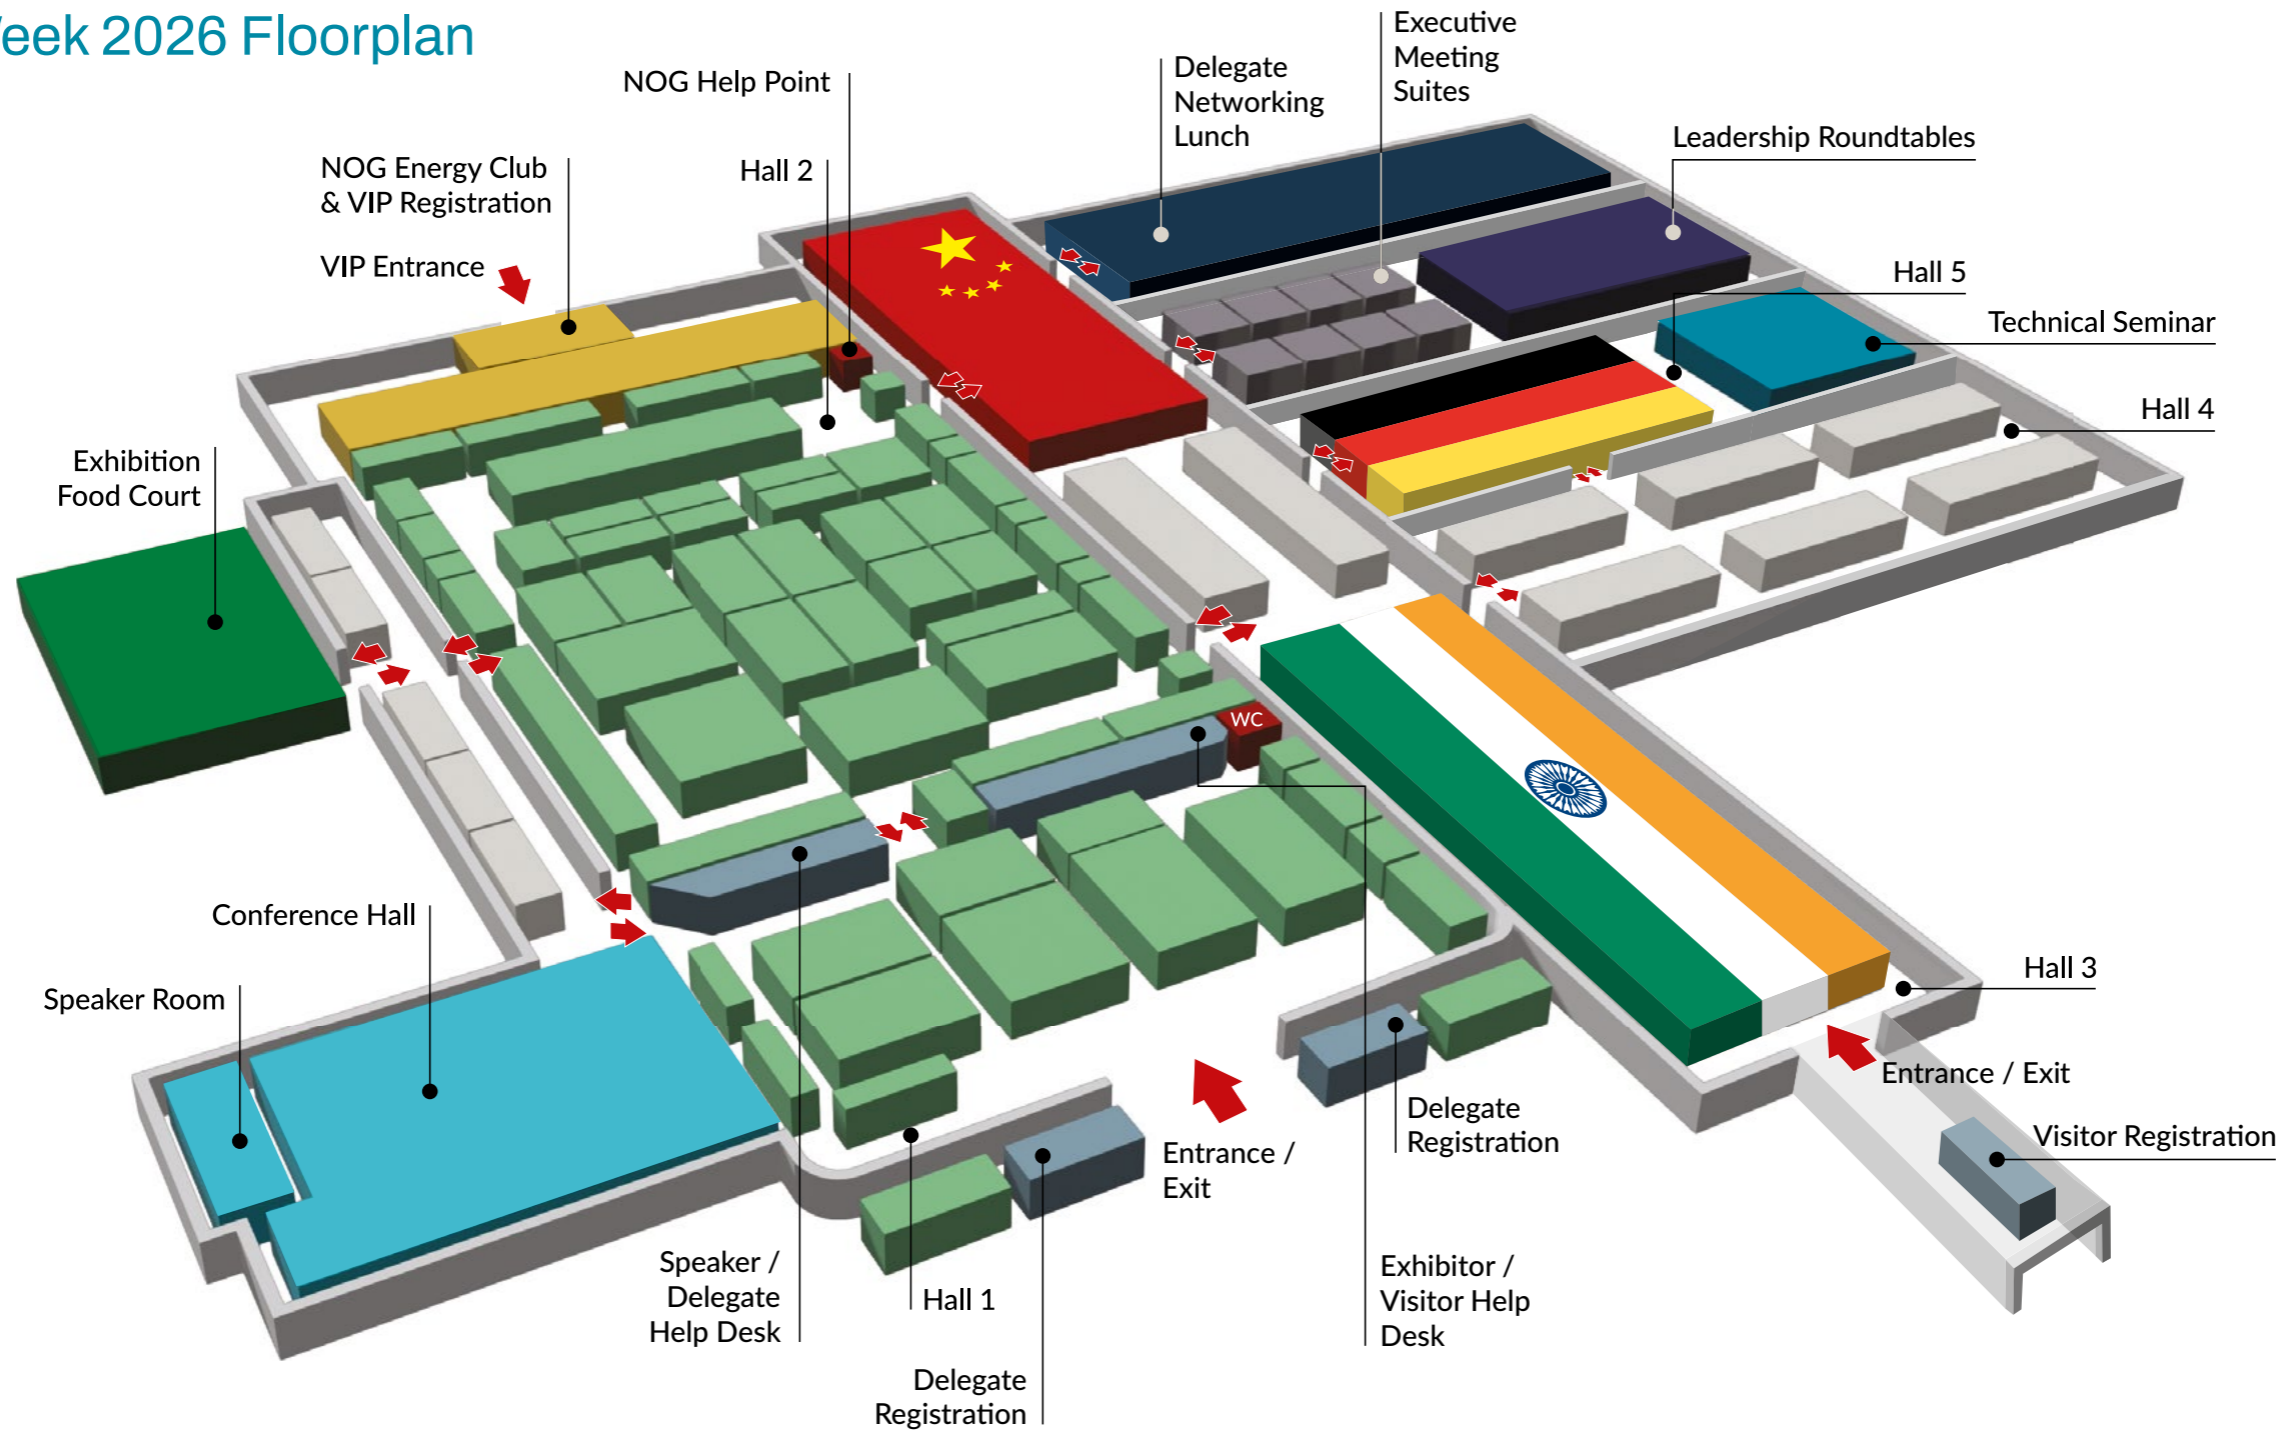

Each year, thousands of participants gather to showcase cutting-edge technologies, unlock market opportunities, and negotiate major contracts. The comprehensive three-day programme features ministerial tours, country pavilion showcases, a Technical Seminar, live technology demonstrations, equipment displays, and product launches - creating a platform for meaningful connections and measurable outcomes.

By championing collaboration, sustainability, and commercial excellence, the international Exhibition continues to catalyse growth, investment, and transformation across the energy landscape.

Uniting the Global Energy Community

With growing international participation and expanding exhibitor presence, NOG Energy Week 2026 will build on the success of previous editions to offer a broader, more diverse platform for global collaboration. The event will spotlight Nigeria's expanding role in the international energy dialogue while welcoming new countries, companies and technologies to shape the future of energy together.

Strategic Conference

Building on a 25-year legacy of energy leadership, the Strategic Conference remains one of Africa's most respected gatherings in the oil, gas, and broader energy sectors. Renowned for convening top-tier business and political decision-makers, the 2026 edition will spotlight transformative discussions led by regional and global leaders across the energy value chain.

This trusted platform empowers participants to move decisively from consensus to action. With a clear focus on advancing global energy security and decarbonisation goals, it fosters critical regional collaboration and supports robust policy frameworks that enable major partnerships, commitments, and deals.

For over two decades, the event has united leaders to drive energy progress – leveraging technological innovation and addressing key funding challenges. By cultivating open dialogue and strategic alliances, it continues to shape Africa's energy future and serves as a catalyst for long-term, impactful change.

2026 Themes in Focus Include

Global Energy Positioning

Positioning Nigeria as a reliable, competitive and investable global energy partner in a volatile world.

Upstream Growth

Recognising upstream performance as foundational to national energy security.

Strategic Partnerships & Regional Alliances

Building strategic partnerships and regional alliances to advance shared energy ambitions in a challenging global landscape.

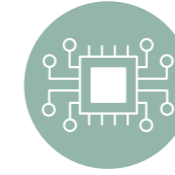

Finance & Investment

Driving investment to scale energy production.

Gas & LNG

Anchoring gas as the strategic foundation for industrial development and export-led growth.

Technology, Innovation & AI

Delivering integrated, market-responsive energy systems through AI-enabled digital and efficiency solutions.

Midstream & Downstream Infrastructure Development

Prioritising capital-led midstream and downstream infrastructure development to accommodate rising demand and diversified energy sources.

Decarbonisation & Renewable Energies

Defining the energy frontier in a decarbonising global economy.

Session Formats

Ministerial Sessions

Ministers, policymakers and decision-makers will share insights into the role of policy in driving investments, strengthening energy security, stabilising geopolitical volatility and fostering global partnerships to shape Africa's energy future.

Strategic Panel Sessions

CEOs, industry experts and influencers will share their diverse perspectives on the strategies to be employed to navigate the emerging business environment, assess the future of multifaceted energy systems, new industry investment trends and strategic partnerships for energy resilience.

Energy Talks

Engaging dialogues with industry CEOs, government leaders and industry experts, led by prominent moderators, addressing key challenges, opportunities and strategic solutions.

Diplomatic Dialogues

High-level discussions with government representatives, diplomatic leaders and regional stakeholders, exploring collaboration, policy alignment and cross-border opportunities shaping the energy landscape.

The Energy Alliance

A dedicated platform for deal announcements, MoU signings, project launches and strategic partnerships, showcasing the agreements driving investment and project development.

VIP Networking

Private Meeting Lounges

First Class Hospitality

Leadership Roundtables

Connecting Energy Leaders to Foster Collaborative Action

The NOG Energy Week Conference & Exhibition will feature high-level, closed-door, invitation-only Leadership Roundtables. This series of meetings under Chatham House Rule will gather selected Ministers, C-level executives and policymakers to foster transformative thinking that will shape the future of the most critical energy challenges being faced by the industry.

The sessions are facilitated by an independent and experienced moderator and hosted by an industry leader. Participants are carefully selected for the session to ensure the calibre of the members remains high – the exclusivity of the Leadership Roundtables is maintained to ensure only the most senior decision-makers are selected. Participants are confirmed through invitations and applications to participate.

One aspect of our involvement and enthusiasm for NOG Energy Week is our sponsorship of the Energy Club. We believe that meaningful, in-depth discussions often happen in more intimate settings.

Over the past few years, we've proudly supported this initiative by the organisers to create a space where key industry stakeholders can connect in a comfortable environment. The Energy Club fosters not only engaging conversations but also provides an opportunity for participants to unwind and be entertained.

Dr. Ainojie 'Alex' Irune
Managing Director
Oando Energy Resources Nigeria Ltd.

The Leadership Roundtable was a detailed and well-attended discussion that highlighted the commitment from both government and private sector participants to support domestic gas development. I'm grateful to the NOG Energy Week organisers for bringing together regulators, investors and industry players in one room to brainstorm on topics crucial for development and industrialisation. The turnout and discussions were impressive, and I believe the outcomes will drive substantial progress over the next 12 months.

Julius Rone OFR
Group Managing Director
